

PRO 4000A

Engineered to be the highest quality, most durable in-line rink system in the industry, the Pro 4000A is perfect for aggressive championship in-line hockey.

Standard Features include:

- 5" wide aluminum frame
- 5 1/2" wide UV-stabilized poly caprail
- 1/4" thick UV-stabilized fiberglass facing
- 6" high UV-stabilized fiberglass kick plate
- Anchor system: Frame surface-mounted with self-contained, plate-in-channel design, which is secured into concrete 3 times every 8 feet
- Upper Containment: Vinyl-coated chain link fencing
- Upright fence posts secured inside center of panel with J hooks
- Partial backer panels inside player/penalty areas, creating built-in water bottle racks

Standard options:

- Pro 3000A options, as well as:
- Full backer panels, which enclose the back of the dasher board frame for a clean, professional finish.
- Tempered glass upper containment
- Acrylic upper containment

"The Border Patrol Pro 4000A system helped us to provide a popular recreational alternative that would enhance the quality of life of our Marines and their families. We chose Athletica because they provided fair and competitive pricing, offered a quality product, and had a history of outstanding service after the sale."
